PROFESSIONAL SUMMARY

AI Engineer and Full-Stack Developer with hands-on experience building and deploying AI-powered web applications, automation systems, and client projects across real estate, legal, food-service, and healthcare verticals.

Combines hands-on Full-Stack expertise (Next.js, React, TypeScript, FastAPI) with deep AI/LLM engineering (Claude API, OpenAI Agents SDK, Gemini, LangChain, RAG pipelines) to design AI chatbots, autonomous agents, and end-to-end automation systems that solve real business problems for clients.

Currently expanding into Data Science through Saylani Mass IT Training (SMIT), building hands-on ML and analysis projects to bring predictive modeling and data-driven decision-making into real-world AI products.

CORE SKILLS

Strong / Hands-on: Next.js, React, TypeScript, Python, FastAPI, PostgreSQL, Sanity CMS, OpenAI Agents SDK, Claude API, Gemini API, RAG Pipelines, REST API Design

Working Knowledge: Docker, Kubernetes, LangChain, MCP, MongoDB, Supabase, Kafka, Dapr, GitHub Actions CI/CD, Vercel

Data Science (In Progress): Python, Pandas, NumPy, SQL, ML Fundamentals

EXPERIENCE

Freelance AI Engineer & Full-Stack Developer

Self-Employed / Freelance | Karachi, Pakistan | Jan 2023 – Present

- **Delivered 5+ web applications** for SMB clients across construction, food-service, healthcare, and personal-branding verticals using Next.js, TypeScript, and Tailwind CSS, integrating Sanity CMS to cut client content-management overhead.
- **Built and deployed AI chatbot platforms** for 3+ client verticals (real estate, restaurant, legal, dental) using the Claude API for natural-language Q&A, automated appointment booking, and lead capture — reducing post-launch support workload through automation.
- **Engineered AI customer-support agents** with Gemini API and OpenAI Agents SDK to handle FAQ resolution, intake forms, and task routing without human agents, reducing client support load.
- **Shipped 2 agentic AI systems** under hackathon deadlines: an event-driven microservices stack (Kafka, Dapr, FastAPI) deployed to Kubernetes with GitHub Actions CI/CD, and a multi-platform browser-automation system using Playwright and MCP.
- **Improved page performance and Core Web Vitals** across client projects via code splitting, lazy loading, and image optimization, improving load speed and organic search visibility.

PROJECTS

Murtaza Builders — Client Project

Real estate & construction website developed for a live client — full-stack build, animated property/listing showcase, and responsive UI/UX designed to drive inbound leads for a home-sales business.

Live Demo → murtaza-builders.vercel.app/

Google Maps Lead Generator

AI-assisted lead-generation tool built with Google Maps API integration to discover, filter, and export local business leads — combining web development and API engineering to automate a manual prospecting workflow.

Live Demo → google-maps-lead-generator.vercel.app/

Dental Clinic AI

AI-powered dental clinic platform featuring a conversational AI chatbot and automated appointment-booking workflow, built to improve patient lead engagement and streamline front-desk scheduling for healthcare clients.

Live Demo → dental-clinic-ai-iota.vercel.app/

Personal AI Employee

Autonomous social-media AI agent (Python, OpenAI Agents SDK, Playwright, MCP) that posts to LinkedIn and WhatsApp unattended, with multi-platform watchers and a vault-based task-queue architecture.

GitHub → github.com/IsmailAbdulkareem

AI Chatbot Website Platform

SaaS-style, multi-tenant chatbot platform (Next.js, Claude API, Stripe) for SMBs across real estate, restaurants, and law firms — covering UI, RAG pipeline, LLM integration, and payment/subscription handling.

Live Demo → buildwithismail.xyz

EDUCATION & TRAINING

Data Science Assignments — SMIT

Python · Pandas · NumPy · SQL · Data Analysis · ML Fundamentals

GitHub → github.com/IsmailAbdulkareem/SMIT_CODE

- **AI & Data Science**, Saylani Mass IT Training (SMIT) — In Progress, 2026
- **Agentic Developer Program**, Governor Sindh Initiative for GenAI, Web3 & Metaverse — Feb 2023 – Present
- **Google AI Professional Certificate**, Coursera / TechValley Sindh — In Progress, 2026
- **Intermediate in Commerce**, National College of Business Administration & Economics, Karachi
